EHRA President (2013-2015)

Prof. Gerhard Hindricks

EHRA President Elect (2015-2017)

Prof. Luigi Padeletti

Chairman of the EHRA National Cardiac
Societies Committee (2013-2015)

Prof. Pekka Raatikainen

EHRA White Book 2014 Sub-Committee
Chair, Member of the EHRA National Cardiac
Societies Committee (2013-2015)

Dr. David O. Arnar

EHRA White Book 2014 Sub-Committee Co-Chair,
Member of the EHRA National Cardiac Societies
Committee (2013-2015)

Acknowledgments

EHRA would like to express its appreciation to BIOTRONIK SE & Co. KG for their continuing support to the EHRA White Book.

Preface – The EHRA White Book 2014: seventh edition

The White Book of the European Heart Rhythm Association (EHRA) has become a key reference for those seeking information about electrophysiological procedures and implantation of cardiac implantable electronic devices (CIEDs) in Europe. No other publication provides such a comprehensive collection of data from 49 of the 56 member countries of the European Society of Cardiology (ESC). Moreover, the EHRA White Book contains valuable up-to-date demographic information about each participating country, key national healthcare statistics along with training and educational requirements for those who are involved in the care of arrhythmia patients. Additionally, there is an attempt to identify possible obstacles to ESC Guidelines implementation in each country.

Since its founding, the spirit and methodology of the project has remained unchanged, although the questionnaire and the data collected has been revised and refined each year.

The EHRA White Book represents a successful and tangible attempt by the leading European professional arrhythmia society to serve its principal mission - to improve the quality of life of the European population by reducing the impact of cardiac arrhythmias and reduce sudden cardiac death. The EHRA White Book is an important reference to monitor the yearly status of treatment of arrhythmia in ESC countries as well as to assess its dynamics and progressive harmonisation in access to healthcare and specifically, arrhythmia treatment over the years.

The data collection is mostly the result of voluntary participation of each National Working Group on Arrhythmias or the National Cardiac Societies. In the vast majority of ESC countries, well established centralised databases of both CIEDs and catheter ablation procedures do exist. The databases are in most cases created and maintained by each National Working Group on arrhythmias and electrophysiology and/or National Cardiac Societies. However, in some ESC countries no registries are available and the data may be limited. In these cases estimates are provided and clearly indicated where this is the case. The EHRA White Book might serve as motivation and a template for these countries to adopt a systematic approach to key data on arrhythmia therapy. Despite the heterogeneous source of information, there is consistency in the data collection over the years that enables comparison on a year to year basis. EHRA is very grateful to all National Working Groups for their continuous support and contribution to the White Book.

As in the past, this edition not only contains last year's data but also an update of last year's information following a process of continuous refinement and improvement. This year's edition includes data from 49 countries.

The EHRA White Book has been made possible thanks to the efforts of several key contributors. Prof. Christian Wolpert and Prof. Panos Vardas deserve special mention as the founding fathers of the EHRA White Book, the chairs and co-chairs of national Working Groups / National Cardiac Societies of the 56 ESC countries, the EHRA staff at the European Heart House, and last but not least the project sponsor, BIOTRONIK SE & Co. KG company and in particular Robert Wüstenberg and Anja Thümen. To all of them, we extend our deepest gratitude and appreciation.

Prof. Karl-Heinz Kuck, EHRA President (2013-2015)

Prof. Gerhard Hindricks, EHRA President Elect (2015-2017)

Prof. Luigi Padeletti, Chairman of the EHRA National Cardiac Societies Committee (2013-2015)

Prof. Pekka Raatikainen, EHRA White Book 2014 Sub-Committee Chair, Member of the EHRA National Cardiac Societies Committee (2013-2015)

Dr. David O. Arnar, EHRA White Book 2014 Sub-Committee Co-Chair, Member of the EHRA National Cardiac Societies Committee (2013-2015)

2. Scope and Methodology

2. Scope and Methodology

The EHRA White Book 2014 is the seventh edition of a project that was launched in an attempt to understand the national realities with regard to treatment of cardiac arrhythmias.

Every year EHRA invites all the countries member of the European Society of Cardiology to participate in this project.

Like in the past most of them have provided data for this year's edition.

In this edition, the following sections are available for all participating countries:

1. Statistics information
2. Country
3. Healthcare system
4. Education
5. Pacemakers
6. Cardiac resynchronization therapy devices
7. Implantable cardiac defibrillator
8. Loop recorders
9. Lead extractions
10. Device specific information
11. Interventional electrophysiology
12. Guidelines
13. Sources

The 2014 EHRA White Book edition follows similar methodology as the previous editions from 2008-2013.

The data were collected by surveying national cardiology societies and working groups of cardiac pacing and electrophysiology of each country.

The chairmen of the societies and/or working groups were responsible for compiling information about their country based on a questionnaire. The data gathered by the societies and working groups were mainly from national registries and national health institutions.

Simultaneously, a secondary investigation was conducted to cross verify and build the quantitative and qualitative information contained in the book. Once the data collection was complete, the national societies or working groups were asked to authorise the publication of the information.

All data were collected in the period from March 2014 to May 2014 and was the most recent available, at the time of the publication. Unfortunately, some countries did not have available data for all of the sections of the book.

3. Sources for Demographic Information

3. Sources for demographic information

The demographic information for each country was taken from the following sources:

Training centres	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	

National Cardiac Society supporting EHRA certification system	
Yes, the Society demands EHRA certification for practice	<input type="checkbox"/>
Yes, the Society advises EHRA certification and homologates national certification	<input type="checkbox"/>
Yes, the Society advises EHRA certification, but it does not homologate national certification	<input type="checkbox"/>
No	<input checked="" type="checkbox"/>
No answer	<input type="checkbox"/>

Specialist required for		
		Specialist
Catheter ablation	Yes	Cardiologist
ICD or pacemaker implants	Yes	Cardiologist

Official national competency guidelines for electrophysiological studies or catheter ablation	No
--	-----------

Required period of training to perform implantations	No
---	-----------

Suggested period of training to perform implantations	Yes	1 year
--	------------	---------------

Training centres availability	
Pacemaker	11
ICD implantation	7
CRT implantation	2
Electrophysiological studies and catheter ablation	1
Atrial fibrillation ablation	0

Number of universities (Schools of Medicine)	10
---	-----------

Percentage of academic centres among all practicing EP centres	100%
---	-------------

Percentage of academic centres among all practicing implanting devices centres	90%
---	------------

5. Pacemakers

Pacemaker units implanted and number of implanting centres		
	2012	2013
Implanting centres	not available	19
Total Pacemaker units implanted	not available	2.480
Thereof, New implants	not available	2.050
Thereof, Replacements	not available	430

Specialist performing implants		
Cardiologists	Yes	99%
Surgeons	Yes	1%

6. Cardiac resynchronization therapy devices

CRT units implanted and number of implanting centres		
	2012	2013
Implanting centres	not available	8
Total CRT units implanted	not available	64
Thereof, CRT pacemaker	not available	31
Thereof, CRT ICD	not available	33

Specialist performing implants		
Cardiologists	Yes	100%
Surgeons	No	0%

7. Implantable Cardiac Defibrillator

ICD units implanted and number of implanting centres		
	2012	2013
Implanting centres	not available	8
Total ICD units implanted	not available	38
Thereof, Single chamber	not available	23
Thereof, Dual chamber	not available	15
First implants	not available	30
Replacements	not available	8

Specialist performing implants		
Cardiologists	Yes	100%
Surgeons	No	0%

8. Loop recorders

Loop recorders implanted and number of implanting centres		
	2012	2013
Implanting centres	not available	2
Total loop recorders implanted	not available	not available

Specialist performing implants		
Cardiologists	Yes	100%
Surgeons	No	0%

9. Lead extractions

Lead extractions procedures and and number of centers that performed lead extractions		
	2012	2013
Hospitals performed lead extractions	not available	not available
Total lead extraction procedures	not available	not available

Specialist performing lead extractions		
Cardiologists	Yes	not available
Surgeons	Yes	not available

10. Device specific

Availability of remote monitoring of devices	No answer
--	-----------

National registry for		
	Official name	
ICD	No	
Pacing	No	
Electrophysiology	No	

Availability of a national quality insurance system or complication registry	No
--	----

Availability of a national institution coordinating and guiding device recalls and complications related to lead extractions	No
--	----

11. Interventional electrophysiology

Number of ablations performed and number of centres		
	2012	2013
Number of ablation centres	not available	1
Number of ablations performed	not available	230
Mean number of ablations per centre	not available	230
Number of AF ablations	not available	0
Number of ablation centres (> 50 AF ablations)	not available	0
Number of ablation centres (> 10 VT ablations on structural heart diseases)	not available	0

Availability of a national registry for interventional electrophysiology	No
--	----

12. Guidelines

Guidelines adhered to ICD implants and pacemaker implants	
National	Not available
U.S.	Not available
European	Yes

Obstacles to guideline implementation	Ranking of importance*					
	1	2	3	4	5	
Lack of centres	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	2
Lack of reimbursement, limited financial resources	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	3

* IMF estimative

2. Country

Proportion of deaths resulting from cardiovascular disease		
	2012	2013
	43%	43%

3. Healthcare System

System The Austrian healthcare system is characterized by the federalist structure of the country, the delegation of competencies to self-governing stakeholders in the social insurance system as well as by cross-stakeholder structures at federal and Länder level which possess competencies in cooperative planning, coordination and financing. According to the Federal Constitution, almost all areas of the healthcare system are primarily the regulatory responsibility of the federal government. The most important exception is the hospital sector. In this area, the federal government is only responsible for enacting basic law; legislation on implementation and enforcement is the responsibility of the nine Länder. In the outpatient sector, but also in the rehabilitation sector and in the field of medicines, healthcare is organized by negotiations between the 21 health insurance funds and the Federation of Austrian Social Insurance Institutions on the one hand and the chambers of physicians and pharmacists (which are organized as public-law bodies) and the statutory professional associations of midwives or other health professions on the other. The various sectors of the health care system have traditionally been characterized by different stakeholders and regulation- and financing mechanisms. However, in recent years there have been increased efforts to introduce decision-making and financing flows which are effective across all sectors. Since 2002, all the Länder (except Vienna) as well as some of the private non-profit owners have privatized their hospitals, mainly in the form of organizational privatizations. The various private operating companies have one thing in common: they are responsible for the management of hospitals, whereas the Länder or local authorities as (majority) owners usually act as a guarantor. The Austrian healthcare system has developed almost completely into a model which is mainly based on decentralized contracts with all service providers. [Health systems in transition, Hofmarcher 2006]

Basic insurance availability	Yes
Requirements: All citizens of our country with a minimum salary of 300€ pay for the social security and therefore qualify for public insurance.

	2012	2013
	not available	not available

3. Healthcare System

Egypt has a segmented health system. There are different public and private providers and financing agents. The main agents are: the government sector, public sector (known as Health Insurance Organization, the Curative Care Organization (CCO) and private organizations. Governmental healthcare sector include the Ministry of Health, University and teaching Hospitals, Military and Police Hospitals.

Basic insurance availability	No
------------------------------	----

Percentage of insured and uninsured citizens		
	2012	2013
Insured citizens	75%	65%
Uninsured citizens	25%	35%

Distribution of insurance modality		
	2012	2013
Public insurance company	60%	64%
Private insurance company	10%	1%
Private co-payment	5%	30-40%*

* No defined pricing for co-payment. It represents an undefined component in each category representing between 30-40%. It is better defined in private insurance companies depending on the coverage agreement and personal payments.

Possibility to subscribing to private health insurance plans	Yes
--	-----

Co-payment necessary for the following therapy

ICD devices	Yes
Pacemakers	Yes
Ablation	Yes

Comments: Private Insurance companies pay all devices and procedures up to CRT-D and 3D mapping/ablation procedures, however this covers only 1% of the general population.

Reimbursement availability for physicians and hospitals

	Physician receives per process reimbursement	Physician does not receive reimbursement, but incentives (e.g. more salary on the following year)	Physician does not receive reimbursement neither incentive	No answer	Hospital receives per process reimbursement	Hospital does not receive reimbursement, but incentives (e.g. more budget on the following year)	Hospital does not receive reimbursement neither incentive	No answer

	2012	2013
	54%	54%

3. Healthcare System

Estonian health insurance relies on the principle of solidarity. The Health Insurance Fund covers the costs of health services required by the person in case of illness regardless of the amount of social tax paid for the person concerned. The Fund uses the social tax paid for the working population, also for covering the cost of health services provided to persons who have no income with regard to work activities. The employers are required by the law to pay social tax for all persons employed, whereby the rate of this tax is 33% of the taxable amount, and of which 20% is allocated for pension insurance and 13% for health insurance.

Basic insurance availability	Yes
------------------------------	-----

Requirements: An insured person is a permanent resident of the Republic of Estonia or a person living in Estonia by virtue of a temporary residence permit or by the right of permanent residence, who pays the social tax for himself/herself or for whom the payer of social tax is required to pay social tax. Insured persons are: a person working on the basis of an employment contract; a public servant; a member of the management or supervisory board of a legal entity; a person employed on the basis of a contract under the law of obligations; a person registered at Estonian Unemployment Insurance Fund; a person, who participated in the elimination of the consequences of a nuclear disaster; a conscript; the non-working spouse of a diplomat or a public servant; the curator of a disabled person; a person receiving child care allowance; a dependant spouse, for whom the government pays social tax; a person receiving social allowance. According to the Health Insurance Act persons for whom no social tax is paid are considered as having equal status to the insured person. The persons having equal status are: a pregnant woman; a person under 19 years of age; a person receiving state pension granted in Estonia; an insured person's dependent spouse, who is no more than 5 years away from attaining the age limit for old-age pension; pupils (there are age limits); a student, who is permanent resident

* 2012 data have been updated

3. Healthcare System

Finland has a compulsory healthcare system which is tax based. It provides comprehensive coverage for the entire population. The Ministry of Social Affairs and Health issues the legislation on health and social care policies and monitors the implementation. At local level, the municipal health committee and council make decisions on the planning and organization of healthcare.

LEBANON

1. Statistics

Age pyramid for Lebanon

Healthcare data		
Hospitals (per 100.000 population)	not available	not available
Beds (per 100.000 population)	not available	not available
Density of physicians (per 1.000 population)	not available	not available
Density of nurses (per 1.000 population)	not available	not available

Demographic information		
Population	4.131.583	2013
Population annual growth rate (%)	-0,2	2013
Life expectancy at birth	76	2013
Death rate (per 1.000 population)	not available	not available
Live births (per 1.000 population)	not available	not available

Economic information		
Gross domestic product (U.S dollar-billions)	43,49	2013*
Gross domestic product per capita (U.S dollar-units)	10.707,67	2013*
Total expenditure on health as % of GDP	not available	not available
General government expenditure on health as % of total expenditure on health	27,0	2010
Private expenditure on health as % of total expenditure on health	73,0	2010

* IMF estimative

2. Country

Proportion of deaths resulting from cardiovascular disease		
	2012	2013
	not available	not available

3. Healthcare System

Most healthcare system is private, nearly 90% of hospitals are private. Governmental facilities are less likely to be equipped with advanced diagnostic and therapeutic medical tools.

Basic insurance availability	No
------------------------------	----

Percentage of insured and uninsured citizens		
	2012	2013
Insured citizens	not available	60%
Uninsured citizens	not available	40%

Distribution of insurance modality		
	2012	2013
Public insurance company	not available	25%
Private insurance company	not available	25%
Private co-payment	not available	10%

Possibility to subscribing to private health insurance plans	Not available
--	---------------

Co-payment necessary for the following therapy	
ICD devices	Yes
Pacemakers	Yes
Ablation	Yes

Reimbursement availability for physicians and hospitals

	Physician receives per process reimbursement	Physician does not receive reimbursement, but incentives (e.g. more salary on the following year)	Physician does not receive reimbursement neither incentive	No answer	Hospital receives per process reimbursement	Hospital does not receive reimbursement, but incentives (e.g. more budget on the following year)	Hospital does not receive reimbursement neither incentive	No answer
Internal loop recorders	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
ICD primary prevention	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

CRT devices	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Ablation	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Treatment availability

No restrictions	<input type="checkbox"/>
No restrictions, but the indications have to follow the ESC guidelines	<input type="checkbox"/>
No restrictions, but the indications have to follow the National guidelines	<input type="checkbox"/>
Restricted to certain number of treatments/budget	<input checked="" type="checkbox"/>
Not funded	<input type="checkbox"/>
No answer	<input type="checkbox"/>

4. Education

National certification availability

	Yes, it's required for practice	Yes, but it's not required for practice	No	No answer	Official name
Device therapy	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	
Invasive electrophysiology	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	
Allied professionals	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	
Training centres	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	

National Cardiac Society supporting EHRA certification system	
Yes, the Society demands EHRA certification for practice	<input type="checkbox"/>
Yes, the Society advises EHRA certification and homologates national certification	<input checked="" type="checkbox"/>
Yes, the Society advises EHRA certification, but it does not homologate national certification	<input type="checkbox"/>
No	<input type="checkbox"/>
No answer	<input type="checkbox"/>

Specialist required for	
	Specialist
Catheter ablation	Yes Cardiologist, Electrophysiologist
ICD or pacemaker implants	No

Official national competency guidelines for electrophysiological studies or catheter ablation	No
--	-----------

Required period of training to perform implantations	No
---	-----------

Suggested period of training to perform implantations	No
--	-----------

Training centres availability	
Pacemaker	5
ICD implantation	5
CRT implantation	5
Electrophysiological studies and catheter ablation	5
Atrial fibrillation ablation	1

Number of universities (Schools of Medicine)	7
---	----------

Percentage of academic centres among all practicing EP centres	80%
---	------------

Percentage of academic centres among all practicing implanting devices centres	80%
---	------------

5. Pacemakers

Pacemaker units implanted and number of implanting centres		
	2012	2013
Implanting centres	not available	15
Total Pacemaker units implanted	not available	900
Thereof, New implants	not available	600
Thereof, Replacements	not available	300

Specialist performing implants		
Cardiologists	Yes	75%
Surgeons	Yes	20%
Other	Yes	5%

6. Cardiac resynchronization therapy devices

CRT units implanted and number of implanting centres		
	2012	2013
Implanting centres	not available	5
Total CRT units implanted	not available	100
Thereof, CRT pacemaker	not available	10
Thereof, CRT ICD	not available	90

Specialist performing implants		
Cardiologists	Yes	90%
Surgeons	Yes	5%
Other	Yes	5%

7. Implantable Cardiac Defibrillator

ICD units implanted and number of implanting centres		
	2012	2013
Implanting centres	not available	10
Total ICD units implanted	not available	300
Thereof, Single chamber	not available	150
Thereof, Dual chamber	not available	150
First implants	not available	200
Replacements	not available	100

Specialist performing implants		
Cardiologists	Yes	75%
Surgeons	Yes	20%
Other	Yes	5%

8. Loop recorders

Loop recorders implanted and number of implanting centres		
	2012	2013
Implanting centres	not available	3
Total loop recorders implanted	not available	6

Specialist performing implants		
Cardiologists	Yes	not available
Surgeons	Yes	not available

9. Lead extractions

Lead extractions procedures and and number of centers that performed lead extractions		
	2012	2013
Hospitals performed lead extractions	not available	5
Total lead extraction procedures	not available	not available

Specialist performing lead extractions		
Cardiologists	Yes	100%
Surgeons	No	0%

10. Device specific

Availability of remote monitoring of devices	No
--	----

Reasons: Network structure not available.

National registry for		
		Official name
ICD	No	
Pacing	No	
Electrophysiology	No	

Availability of a national quality insurance system or complication registry	No
--	----

Availability of a national institution coordinating and guiding device recalls and complications related to lead extractions	No
--	----

11. Interventional electrophysiology

Number of ablations performed and number of centres		
	2012	2013
Number of ablation centres	not available	5
Number of ablations performed	not available	100
Mean number of ablations per centre	not available	20
Number of AF ablations	not available	not available
Number of ablation centres (> 50 AF ablations)	not available	0
Number of ablation centres (> 10 VT ablations on structural heart diseases)	not available	0

Availability of a national registry for interventional electrophysiology	No
--	----

12. Guidelines

Guidelines adhered to ICD implants and pacemaker implants	
National	No
U.S.	Yes
European	Yes

Obstacles to guideline implementation	Ranking of importance*				
	1	2	3	4	5
Lack of centres	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Lack of reimbursement, limited financial resources	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

* IMF estimative

2. Country

Proportion of deaths resulting from cardiovascular disease		
	2012	2013
	53%	47%

3. Healthcare System

National health system with universal health insurance coverage, major hospitals (incl. university hospitals) owned and operated by government, regional hospitals mostly non-profit organizations or privately owned. General practitioners and most specialists work in private offices (on the basis of agreements with insurance companies, no (or very little) cash contribution from the patients for medical services. There is no patient financial contribution for arrhythmia devices or interventions. However, significant co-payments for most cardiovascular drugs.

Basic insurance availability	Yes
Requirements: citizenship or permanent residence, no further requirements, health insurance coverage is mandatory, for the unemployed population the coverage is guaranteed by the constitution and paid by the government.	

Percentage of insured and uninsured citizens		
	2012	2013
Insured citizens	100%	100%
Uninsured citizens	0%	0%

Reimbursement availability for physicians and hospitals

	Physician receives per process reimbursement	Physician does not receive reimbursement, but incentives (e.g. more salary on the following year)	Physician does not receive reimbursement neither incentive	No answer	Hospital receives per process reimbursement	Hospital does not receive reimbursement, but incentives (e.g. more budget on the following year)	Hospital does not receive reimbursement neither incentive	No answer
Internal loop recorders	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
ICD primary prevention	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
ICD secondary prevention	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
CRT devices	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Ablation	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Comments:	Physician reimbursement is only for procedures performed in the private sector. All NHS work is with a fixed salary, with no reimbursement or incentive.				All procedures have a set tariff, which is the amount the hospital receives.			

Treatment availability

No restrictions	<input type="checkbox"/>
No restrictions, but the indications have to follow the ESC guidelines	<input type="checkbox"/>
No restrictions, but the indications have to follow the National guidelines	<input checked="" type="checkbox"/>
Restricted to certain number of treatments/budget	<input type="checkbox"/>
Not funded	<input type="checkbox"/>
No answer	<input type="checkbox"/>

Comments: NICE (for example sets indications for ICD implantation that are determined by both clinical efficacy and cost-effectiveness).

4. Education

National certification availability

	Yes, it's required for practice	Yes, but it's not required for practice	No	No answer	Official name
Device therapy	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Certificate of Completion of Specialist Training (with subspecialty training in Device/EP) issued by Joint Royal Colleges of Physicians Training Board is mandatory; Accreditation by British Heart Rhythm Society/HRs/EHRA is encouraged but not mandatory
Invasive electrophysiology	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Certificate of Completion of Specialist Training (with subspecialty training in Device/EP) issued by Joint Royal Colleges of Physicians Training Board is mandatory; Accreditation by British Heart Rhythm Society/HRs/EHRA is encouraged but not mandatory
Allied professionals	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Society for Cardiological Science and Technology
Training centres	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	British Heart Rhythm Society has guidelines for training centres for device management (basic, advanced) and EP (basic, advanced) but these are not mandatory

National Cardiac Society supporting EHRA certification system	
Yes, the Society demands EHRA certification for practice	<input type="checkbox"/>
Yes, the Society advises EHRA certification and homologates national certification	<input type="checkbox"/>
Yes, the Society advises EHRA certification, but it does not homologate national certification	<input type="checkbox"/>
No	<input checked="" type="checkbox"/>
No answer	<input type="checkbox"/>

Specialist required for		
	Specialist	
Catheter ablation	Yes	Certificate of Completion of Specialist Training (with subspecialty training in Device/EP) issued by Joint Royal Colleges of Physicians Training Board is mandatory; Accreditation by British Heart Rhythm Society/HRS/EHRA is encouraged but not mandatory
ICD or pacemaker implants	Yes	Certificate of Completion of Specialist Training (with subspecialty training in Device/EP) issued by Joint Royal Colleges of Physicians Training Board is mandatory; Accreditation by British Heart Rhythm Society/HRS/EHRA is encouraged but not mandatory

Official national competency guidelines for electrophysiological studies or catheter ablation	Yes
---	-----

Official name; British Heart Rhythm Society publishes guidelines for competency, ongoing competency, and for centres.

Required period of training to perform implantations	Yes	2 years
Comments: 2 years of subspecialty training (after 3 years of basic training including pacing implantation).		

Suggested period of training to perform implantations	Yes	2 years
Comments: 2 years of subspecialty training (after 3 years of basic training including pacing implantation).		

Training centres availability	
Pacemaker	50
ICD implantation	50
CRT implantation	50
Electrophysiological studies and catheter ablation	40
Atrial fibrillation ablation	40

Number of universities (Schools of Medicine)	33
--	----

Percentage of academic centres among all practicing EP centres	50%
--	-----

Percentage of academic centres among all practicing implanting devices centres	14%
--	-----

5. Pacemakers

Pacemaker units implanted and number of implanting centres			
	2012		2013
Implanting centres	205		227
Total Pacemaker units implanted	38.770		44.503
Thereof, New implants	32.120		32.567
Thereof, Replacements	6.650		11.936

Specialist performing implants			
Cardiologists	Yes		98%
Surgeons	Yes		2%

6. Cardiac resynchronization therapy devices

CRT units implanted and number of implanting centres			
	2012		2013
Implanting centres	114		109
Total CRT units implanted	6.965		7.762
Thereof, CRT pacemaker	4.015		3.792
Thereof, CRT ICD	2.950		3.970

Specialist performing implants			
Cardiologists	Yes		98%
Surgeons	Yes		2%

7. Implantable Cardiac Defibrillator

ICD units implanted and number of implanting centres		
	2012	2013
Implanting centres	114	106
Total ICD units implanted	5.762	5.809
Thereof, Single chamber	1.310	1.806
Thereof, Dual chamber	4.452	4.003
First implants	4.788	3.988
Replacements	974	1.821

Specialist performing implants		
Cardiologists	Yes	98%
Surgeons	Yes	2%

8. Loop recorders

Loop recorders implanted and number of implanting centres		
	2012	2013
Implanting centres	not available	120
Total loop recorders implanted	not available	4.104

Specialist performing implants		
Cardiologists	Yes	100%
Surgeons	No	0%

9. Lead extractions

Lead extractions procedures and and number of centers that performed lead extractions		
	2012	2013
Hospitals performed lead extractions	not available	not available
Total lead extraction procedures	not available	not available

Specialist performing lead extractions		
Cardiologists	Yes	not available
Surgeons	Yes	not available

10. Device specific

Availability of remote monitoring of devices	Yes
--	-----

National registry for		
		Official name
ICD	Yes	National CRM Database (NICOR)
Pacing	Yes	National CRM Database (NICOR)
Electrophysiology	Yes	National CRM Database (NICOR)

Availability of a national quality insurance system or complication registry	Yes
--	-----

Official name: National CRM Database (NICOR)

Availability of a national institution coordinating and guiding device recalls and complications related to lead extractions	Yes
--	-----

Official name: Medicines and Healthcare Regulatory Authority

11. Interventional electrophysiology

Number of ablations performed and number of centres		
	2012	2013
Number of ablation centres	48	54
Number of ablations performed	16.030	15.903
Mean number of ablations per centre	308	295
Number of AF ablations	5.064	5.408
Number of ablation centres (> 50 AF ablations)	26	30
Number of ablation centres (> 10 VT ablations on structural heart diseases)	24	22

Availability of a national registry for interventional electrophysiology	Yes
Official name: National CRM Database (NICOR)	

12. Guidelines

Guidelines adhered to ICD implants and pacemaker implants	
National	Yes
U.S.	No
European	Yes

Obstacles to guideline implementation	Ranking of importance*					
	1	2	3	4	5	
Lack of centres	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	6
Lack of reimbursement, limited financial resources	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	4
Lack of referral	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	1
Lack of trained personnel	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	2
Low awareness of guidelines	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	3
Lack of operators	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	5
1 = no obstacle 5 = great obstacle * (1 = top; 6 = lowest)

5. Appendix

EHRA Certification

The EHRA offers the first European certification of professional excellence, in three areas:

- Electrophysiology
- Cardiac Pacing & Device Therapy
- Allied Professionals

The EHRA is pleased to publish the list, starting from 2006, of professionals who are officially fully certified, as well as that of the candidates who have passed the written part of the certification process. «Join us in congratulating them!»

Candidates successful to the exam need to have their logbook assessed by an EHRA grader to be fully certified. EHRA Certification is valid for 10 years.
